### **Pas op! Kunst! (Watch out! Art!)**

Heralding art, as a work of art. Black and white letters flash like an alarm signal. What is going on, what's that up there? You only see what is blinking so insistently when you look properly: 'Watch out! Art! Watch out! Art!'

The non-stop warning sign 'Watch out! Art!' alerts us and stimulates questions: do you have to watch out for art? Or do you have to watch out for it in the sense of protecting it?

Martijn Sandberg has created the work 'Pas op! Kunst!' specifically for showing on LED-screen, at the invitation of the Museum De Paviljoens in Almere. The non-stop loop was first presented in 2008 during the Dropstuff.nl project at the location Esplanade, Almere.
